

Preferred Parking Rates for Commuters

The following is an explanation of how you as a commuter can receive a reduced parking rate when traveling by train and utilizing the parking facility here at the Amtrak Station in Sacramento.

You may obtain a preferred rate **prior** to your departure by visiting the Platinum Parking Office and presenting your train ticket and requesting to purchase the preferred rate for the number of days in which you are traveling (Up to a maximum of 10). Platinum Parking will then sell you each days parking at a reduced rate from \$13 to \$6.50 each day and provide you with the **validation tickets** necessary for you to receive the rate when paying at one of the four Pay Stations now located throughout the Lot.

Platinum Parking's Office is located to the left of the doorway leading out and towards the train platform and is open from **8am to 5pm daily** for pre-purchase of these discounts. If discounts are not pre-purchased during regular business hours, you will not be extended the preferred rate.

Here are instructions on how to pay for the time parked and receive the reduced rate at the pay station after you've pre-purchased your discount validation(s) at the Platinum Parking office.

1. **You will need the ticket you received upon entry** and should scan the bar code in the slot provided at the pay station for it to compute your rate.
2. Once the machine computes your rate, you should **scan each of the validation tickets** you have to reduce the rate to the preferred rate you have received. You will need to **press the validation button for each ticket used**. Please look for this instruction on the display screen of the Pay Station.
3. **Take exit ticket** that is dispensed **from the machine** for **use at the exit terminal** once you have returned to your car and are leaving the facility. **This ticket will allow you to leave the facility** once you reach the exit. It gives you fifteen minutes to return to your car and reach the exit terminals.
